<b>1.</b> EVACUATE (If there is an accessible escape path, attempt to evacuate the premises)	<ul> <li>Be aware of your environment and any possible dangers</li> <li>Take note of the two nearest exits in any facility you visit</li> </ul>	
Have an escape route and plan in mind		
Evacuate regardless of whether others agree to follow	<ul> <li>If you are in an office, stay there and secure the door</li> </ul>	
<ul> <li>Leave your belongings behind</li> </ul>	<ul> <li>If you are in a hallway, get into a room and secure the door</li> </ul>	
<ul> <li>Help others escape, if possible</li> </ul>	As a last resort, attempt to take the active shooter down. When the shooter is at close range	
	and you cannot flee, your chance of survival is much greater if you try to incapacitate him/her.

Your hiding place should:	<ul> <li>Officers may use pepper spray or tear gas to control the situation</li> </ul>	
Be out of the active shooter's view	<ul> <li>Officers may shout commands, and may push individuals to the ground for their safety</li> </ul>	
Provide protection if shots are fired in your direction (i.e., an office with a closed and locked door)	HOW TO REACT WHEN LAW ENFORCEMENT ARRIVES:	
Not trap you or restrict your options for movement	<ul> <li>Remain calm, and follow officers' instructions</li> </ul>	
To prevent an active shooter from entering your hiding place:	<ul> <li>Put down any items in your hands (i.e., bags, jackets)</li> </ul>	
Lock the door	<ul> <li>Immediately raise hands and spread fingers</li> </ul>	
Blockade the door with heavy furniture	• Keep hands visible at all times

<ul> <li>If you cannot speak, leave the line open and allow the dispatcher to listen.</li> </ul>	The first officers to arrive to the scene will not stop to help injured persons. Expect rescue teams comprised of
